COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, NOVEMBER 7, 1906.

NUMBER 52

ELECTION RETURNS

Indicate Beckham a Winner by 10,000 Majority.

Hager's Majority over Hays From 10,000 to 12,000.

NEXT CONGRESS SAFELY REPUBLICAN.

The latest returns from the Democratic State Primary indicate the nomination of Governor Beckham for United States Senator over the Hon. James B. McCreary by 10,000 majority, and the contest between Hager and Hays, the former wins by 10,000 votes.

So far we failed to get the result in the other contests but Hendricks and Newman are winners. Just how it will appear between Winfrey and Guillion has not yet been reported.

Hughes wins in New York by 52,000 but the remainder of the Republican ticket goes down below the freezing point, the Democrats winning by a small majority.

That heavy majority in Congress will be but slightly disturbed judging from first echoes from various States where losses and gains were expected.

Both parties claims victory in Missouri.

ADAIR COUNTY.

The result in the Primary Election in Adair county shows that Beckham wins by about 570; Hager by nearly 600. John K. Hendricks gets about 400 votes to 75 for Lillard Carter for Attorney General; Mat O. Winfrey candidate for Superintendent of Public Instruction carries Adair county by a majority of 175 over E. A. Guillion. The returns in the race for Commissioner of Agriculture show that Newman carries the county over Crenshaw by a large majority.

For the first time in a number of years Adair county gave a Democratic majority. Dr. A. Gatfield candidate for Congress received a small majority over the present incumbent, Hon. D. C. Edwards. So far as we are informed not a dollar was spent on either side, and the above result was due to the indifference of Republican voters, many of them staying at home. The entire vote of the county shows that full one-half of the voters failed to appear at the polls.

MUSICAL TREAT.

On Wednesday afternoon, Oct. 31st the music pupils of the M. and F. High School met in the studio to spend an hour with Domenico Scarlatti and Christoph Willibald von Gluck. Two carefully prepared papers on the life and works of these composers were read by Misses Lina Rosenfield and Myrtle Myers, after which Prof. Ohlenmacker made an interesting talk to his class.

This was one of a series of class recitals to be given this year, all of which are looked forward to with expectancy and delight by the pupils. Under the direction of so competent an instructor as Prof. Ohlenmacker, who is untiring in his efforts to arouse interest, these hours with the masters can be not other than edifying and instructive.

WITH DR. PAGE

Mr. Leonard Dohoney, son of Mr. John C. Dohoney, has accepted a position as clerk with Dr. J. N. Page, Druggist. Leonard attended the Louisville School of Pharmacy and afterward was in the employ of T. P. Taylor, the largest retail drug firm in Louisville.

A SWELL RECEPTION.

Given the Young Ladies of Columbia in Payment of a Halloween Wager.

Halloween evening a number of young ladies were to secrete themselves in some residence between Pea Ridge and the bridge; if the young men found them a supper was to be given the boys, but if they were not discovered before the appointed hour the boys were to be the hosts. Of course the young ladies were not discovered and as a result a supper was served at the Columbia hotel Monday evening. The management prepared an elegant banquet, and in every manner the occasion was pronounced very enjoyable. Following is a list of those present: Messrs C. C. Pickett, M. E. Stults, Tim Cravens, F. P. Hill, A. S. Chewing, M. Rey Yarbber, E. T. Jeffries, John L. Walker, Fred Myers, Ray Montgomery, Geo. E. Wilson, H. T. Baker, John Shelton, Nat Walker, Pete Conover, G. P. Smythe, James Garnett, Robt. Todd, Bruce Montgomery, T. M. Wilson, of Cave City, Mrs. Dollie Bailey, of Texas, Misses Alice Walker, Myrtle Myers, Katie Murrell, Viola Fraser, Daut Marcum, Ronnie Stults, Bess Rowe, Corlie Robinson, Nina Marcum, May Pickett, Lina Rosenfield, Jennie McFarland, Dimple Conover, Elina Robinson, Leeta Cartwright, Amanda Butler, Kate Walker, Carrie B. Flowers.

REV. A. R. KASEY AT BURKESVILLE.

Rev. A. R. Kasey, pastor of the M. E. Church South, this city, left for Burkesville Monday morning to assist his brother, Rev. Alex Kasey, in a series of meetings.

LAYING FOUNDATION.

Excavating for the foundation for Mr. Frank Jackman's new brick building in the West corner of the public square was finished last week. The foundation is being put down this week, and as soon as finished and the material can be had the Messrs Simms will begin laying brick.

DISSOLVE PARTNERSHIP.

Messrs. Flowers and Price, the barbers, have dissolved partnership. Mr. Flowers retaining the shop and fixtures at the Columbia Hotel. Mr. Price will continue to run the shop near the News office and will be assisted by Mr. G. Lowe, who will also instruct the band.

BAFFLED MEDICAL SKILL.

Does the Condition of Herschel Grider, of Rowena, Kentucky.

At Rowena, Russell county, Kentucky, is one of the most peculiar cases known to the Medical profession and for twelve years has baffled the skilled physicians of America.

A few days since, Mr. Porter McFarland, of Belle Plains, Kansas, called at the News office with a picture of Mr. Herschel Grider, son of a prominent farmer, who lives at the mouth of Indian creek, near Rowena, which is said to be a perfect likeness of the original, who has been asleep, or in an unconscious condition for twelve or thirteen years.

In conversation with Mr. John McFarland, a substantial citizen of Rowena, and a man whose word is his bond, he makes the following statement concerning the case: "I have known Herschel Grider since his childhood and know that he has been in an unconscious condition, or a stupor for twelve or fourteen years, and his father tells me that during this time, consciousness has only returned twice and then for only a few minutes. The family carry the unconscious man food at the regular hours, and place it on a table at his side. If the attendant remains in the room it will not be disturbed, but upon leaving the room and returning in a few minutes the meal will have been consumed. The man may be deposited in a chair or on the bed and will not move a muscle or change his position a hair's breadth. The cause is unknown, but about the time the misfortune occurred Herschel attempted to set off a blast, one made from a quart bottle of powder, the fuse becoming entangled around his feet and when the explosion occurred was considerably shocked."

Mr. Grider is a brother of Dr. Frank Grider, of McKinney, Ky., and a nephew of Drs. Alex. and Clay Jackman, of Cumberland river, all of whom are skilled practitioners, but so far they have not been able to solve the perplexing case. These gentlemen have placed the matter before the most skilled medical experts in America, and numerous physicians have made examinations, but no direct cause has ever been assigned nor any relief given to the unconscious man.

LARGER AMOUNT OF TAXES PAID

At This Period of the Year Than Ever Before.

Sheriff W. B. Pattezon informs us that for this period of the year the tax collections are unusually good, there being left unpaid a much smaller amount than ever before in the history of Adair county.

The tax on the property in Adair county amounts to about \$28,000 and of this sum the sheriff force collected over twenty-seven thousand dollars from July 1st to November 1st, a collection as above stated that has never been equaled.

From the 1st day of November until the 15th, those who are yet behind may settle by paying the per cent, but after the fifteen days expire the entire list of delinquents will be turned over to the clerk, who will issue tax warrants, then the list will be returned to the Sheriff for collection by levy and sale. The cost of making the collection by this method, will increase the amount from \$1.50 and up.

RETURNED FROM MEXICO.

Mr. A. T. Sherrill, of Gradyville, who recently returned from a visit to

New Mexico was in Columbia Thursday and in conversation with a News man said that he was very favorably impressed with that section, but did not file on a claim, as the high altitude there did not agree with him. Mr. Sherrill said that the Adair county colony in Roosevelt county was very well pleased.

HAS POSITION AT BURKESVILLE.

Mr. Clarence Hurt, of Montpelier, was in Columbia last week enroute for Burkesville, where he has a position as book-keeper for the Indiana Co. Co. Clarence was a student at the Russell Springs Academy last Winter and studied book-keeping under the Messrs. Hatfields. He is one of the best young men of the Montpelier section and we wish success in his new position.

COMMISSIONER'S COURT

Deputy Marshall Cundiff Brings Violators of the law to Justice.

We have had a number of good Deputy United States Marshals at work in this section at different times, but none who have done better work than genial Jeff Cundiff. Since taking charge of this territory Mr. Cundiff has been a terror to violators of the Internal revenue laws, and has succeeded in breaking up the business of "boot-legging" to a great extent. Mr. Cundiff has the endorsement, and we believe the help of all good citizens.

Deputy United States Marshal, Cundiff, arrested Lindsay Lucas, of Dunnville, Ky., and brought him before Commissioner Winfrey, Monday. The evidence in the case shows that Lucas peddled whiskey at a picnic in Dunnville last June, and the defendant entered a plea of guilty. Lucas claims that he was selling for another party, and that he was paid \$2 for his day's work. He was held over to the Federal Court.

John Bowen, of Russell Springs, was tried before the Commissioner last week, and was acquitted.

Joseph Aarons, son of Thomas Aarons, of the Glensfork country, was arrested by Marshal Cundiff and brought before Judge Winfrey Monday afternoon. Upon the proof offered he was held to the Federal Grand Jury. Aarons was granted bond, which was immediately furnished.

MARRIED IN CALIFORNIA.

Miss Lee Jones, of Cane Valley, left for San Diego, California, October 12th to be united in marriage to Mr. Will Penick. Miss Jones is a grand-daughter of Mrs. Mary Corbin, and has a large circle of friends who regret to lose her, but wish the new married couple much happiness throughout life's journey.

COMMISSIONERS SALES.

Master Commissioner H. T. Baker made the following sales at the Court-house door Monday:

Sanders land, 179 acres, to H. M. Workman for \$555.
Henry Farlee house and two lots, just outside town limits to Judge W. W. Jones for \$1105.

A one-seventh interest in the Hundley land, 268 acres, to Arthur Royse for \$112.50.

Abijah Humphreys farm of 100 acres to T. F. Collins for \$176.

Hon. M. Rey Yarbber, this city, made a number of speeches in Russell county last week in the interest of the Republican party.

Mr. Geo. N. Rosenfield has accepted a position with J. A. Shuttworth & Co., wholesale clothing, Louisville, Ky., and is now working this territory.

CAMPBELLVILLE MINSTRELS

Put up a Good Show at the Court House Friday Evening.

The Minstrel Show at the court house last Friday evening, given under the auspices of the Campbellville Brass Band, was witnessed by a large audience, and we are glad to say, was a financial success to its promoters.

The Minstrel troupe was composed of Campbellville local talent, and each and every one acquitted himself in a most worthy manner. The program, was of course considerably varied, and the boys are to be congratulated on securing talent so well fitted for the various roles.

We will not attempt to give each the praise due but will say the black face comedians were good impersonators, the interlocutor, who by the way, was clever Jack Sanders was there with the "goods," the dancing was first-class and in fact the entire performance was above the average.

Preceding the beginning of the show, the Columbia Band complimented the visitors by playing several numbers, and considering the chilly atmosphere and scarcity of light, did remarkably well.

MECCA FOR COMMERCIAL MEN.

Columbia has the reputation throughout the State of being one of the best towns in which the Commercial men can spend Sunday, and on Friday and Saturday they begin registering at our two hostleries. Nearly every Sunday you find a number of clever Knights of the Grip in the lobbies, and a more gentlemanly and courteous set would be hard to find. Many of these gentlemen have been coming to Columbia for a number of years, and have made warm friends, who are always glad to welcome them. A number of whole-souled, clever gentleman in this line make our town headquarters, and many own property and are rated as our foremost citizens.

M. REY YARBERRY.

Hon. M. Rey Yarbber orated to a medium sized audience in the court house Monday. The burden of his speech was to arouse the prosperity makers-country savers and bring the wrath and power of the G. O. P., down on Democracy. Mr. Yarbber is quite a fluent speaker but after all, the people just voted as they had mapped out. Mr. Yarbber denounced the "dog law" as oppressive and unjust, saying, "I would rather go to the Kentucky Legislature and repeal that unjust taxation than occupy a seat in the National Congress." Rumor has it that Mr. Yarbber will be a candidate for the Legislature and it goes without saying that he will be in the running if he decides to enter the race.

PROTRACTED SERVICES.

Beginning the first Tuesday following the first Sunday in December a series of meetings will be held in the M. E. Church this city. The pastor, Rev. A. R. Kasey will be assisted by the Rev. T. L. Hulse, of Pembroke, Ky. Rev. Hulse needs no introduction to our people, having served as pastor of the Gradyville church for several years and on numerous occasions filled the pulpit at the M. E. Church this city.

Mr. C. C. Pickett, who has been a compositor on the Spectator for about one year, resigned the first of the month and is now with Mr. S. W. Beck, dealer in furniture and groceries.

Attend the sale of Mr. E. H. Newberry next Thursday, November 8th.

HALLOWE'EN IN OLDEN TIME.

Hallowe'en, or the eve of All Saints, is one of the oldest feasts of the Catholic Church, and has been the occasion of sport and pranks bordering on the clairvoyant for centuries past.

In old English times it was a night of mystery, full of charms and revelry and queer pastimes.

Delving into the future in order to catch a glimpse of one's prospective other half was one of the enjoyments. Many of the tricks practiced on this eventful evening were so odd and weird that the claim that they have been handed down from Druidical times seems just. The folk lore and legends of the Celt are of a more kindly, spiritualized form than are the myths and fables of heathen countries. The resemblance between those of the two countries, Ireland and Scotland, is so striking that a frolicsome lad could easily leave his native heather to spend the evening of All Hallow-mas on the South side of the Giant's Causeway, listening to tales of Carrig-na-Pooka and feel altogether "at home." Indeed, the spells and witchery indulged in on this great night when elves were dancing on the highways in Ireland, the brownies were holding carnival in the land that claims the Doon.

Sowing the hemp seed at midnight in a lonely field was customary with both nations. Burns tells us that Jamie Fleck took a handful of hemp seed and going out alone, "tho' saer afeard," to sow the seed, all the time repeating as he advanced; "Hemp seed, I sow thee. An' ner that is to be my lass. Come after me and draw thee. As fast, this night."

Drawing his narrow furrow along the ground poor Jamie struck his neighbor's pig, its squealing causing him terrible fright. "An' young an' auld cam' runding out to hear the sad narration."

To dip the left shirt sleeve into a rivulet, "where three lands meet," and going home, place it before the fire to dry, would bring the future wife, who would turn the sleeves other side to the fire. This was a trick also peculiar to both Irish and Scotch.

Putting nuts into a blazing fire, naming each after one's sweetheart, was supposed to be a fine way of ascertaining the temper and disposition of the dear one nearest the heart. If they "bleezed brightly together," then so would the lives of the two whose names were bestowed on the good housewife's nuts. But if the nuts jumped and sputtered "and flew high that night with saucy pride," so would the sad sight "make the heart sair to see," as they sat around the well-swept hearth. In Ireland, as in Scotland, maidens combed their tresses in front of a mirror while eating an apple all the time and, at the lonely midnight hour, in the midst of the trick, their conjugal companion was expected to look over their shoulder into the mirror.

Indeed, the de'llone was out that night," the jolly picture painter of Scotland's customs assures us. As he tells of the tricks in vogue among his people,

he mentions the class of aerial beings that supposedly inhabited Ireland more than any other land. In "Hark, the Mavis," he refers to them as inhabiting "Yonder Clouden's silent towers Where at moonshine, midnight hours O'er the dewy, bending flowers Fairie's dance see cheery."

On Hallowe'en in Ireland, no one would venture out, unless compelled by great necessity, because the fairies were supposed to be abroad. The lofty towers that exist in Ireland were thought to be the abiding places of some of these "good people," and the thickets and lonely spots of the country places also had their fairies. The little red-capped, red coated fairy was a great favorite among the country people. To catch one of these little chaps and hold him until he would tell where some great wealth was buried was one of the pleasant tales of the old days. The belief in fairies was firmly rooted in Ireland, and it was this belief that led to the queer doings, that obtained among them on Hallowe'en.

The young people would go early in the afternoon and remain over night, rarely braving the terrors of a journey home after midnight on this particular evening. Sounds were heard and strange sights seen, blazing fires on hill-tops being among the odd things visible in Ireland on All Hallowe'en, especially, at midnight. The lonely rocks on the fishing coasts of this green isle echoed the wail of the banshee's cry, and the moss-grown abbeys, with their empty, ruined stalls and desolated altars, were more gloomy and awe-inspiring on Hallowe'en than on any other day. As a more commercial spirit advances among nations these strange beliefs are dying out and Ireland's fairies and Scotland's brownies have become a myth and nothing more.

COLD WINTER SIGNS.

The corn husks are a foot and a half thick, and all the stalks lean to the West.

The grogs have already begun searching the bottoms of mill-ponds and mud holes to find out the deepest places.

The geese, ducks and chickens are growing a coat of fur under their feathers and are rubbing borax on their feet to harden them up.

All the one-eyed owls are leaving the country a month earlier than usual, and the bob-tailed squirrels are laying in sweet potatoes as well as nuts for winter provisions.

Tyrone Barbers report that the demand among bald-headed men for applications of hair restorer is greater in number than for many previous seasons. Also many young men are about to raise full beards, whether they are becoming or not.

All the toad-stools on the old logs have wrinkles on them. The last time this happened we had winter weather that froze the handles of plows.

Rabbits are sitting around with a humped-up look to them, and field mice have wrinkles in their tails. If this means anything it means 20 degrees below zero from November through to May.—Tyrone, Penn. Herald.

CAMPAIGNING IN DAKOTA.

Two Young Women Candidates Brave Wilds to See Voters.

One of the most unique campaigns ever waged will be that between the two candidates for the office of County Superintendent of this county, says a Belle Fourche (S. D.) letter. The two young ladies who are running for the office are both ex-Superintendents, one, Miss Elsie Malcolm, having served her two terms in this county, and the other, Miss Susie Bird, having done equal duty in Meade county. They are both experienced politicians.

In order to make their campaign, they will have to cover as much territory as would the Governor of Massachusetts in his campaign, for Butte county is easily the size of Massachusetts, and could swallow Rhode Island and not know it. But no such means of transportation are available for these ladies as would be were they back in the Bay State, for a large part of the northern part of this county is but newly settled, and there are stretches of country that know no settlers save the prairie dog.

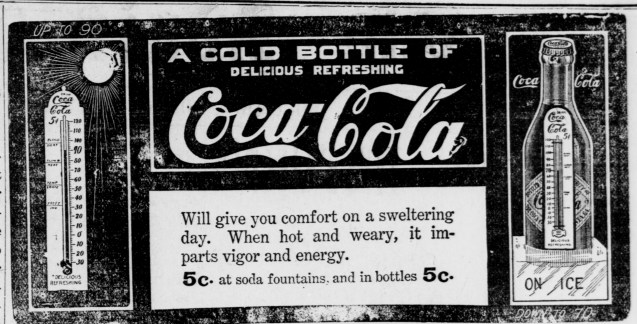

Over this country, often alone, in a little buckboard, or on the back of a trusty cow-pony, for distances of not less than 200 miles, these intrepid girls must go to meet the voters of Butte county. Often their way will be among the cow ranches, and not seldom through the moving camps of cowboys or sheep herders. Out in the northern part of this county a great number of new settlers have come recently, attracted by the prospective route of the Milwaukee railroad. Down in the southern part is also a new population, employed on the government ditch. How all of these strangers are going to vote no one yet knows. Their politics is unknown, and the young lady who reaches them first is likely to prove the winner. Because of so many new settlers the entire county of Butte is in doubt, and neither party claims it with any confidence. Both of the young women candidates are attractive personally, both are well qualified for the office, and both have had the advantage of previous experience, so that it is an interesting race.

SCIENCE FIGHTS AGAINST DISEASE.

Is a battle typified by that of Dr. Caldwell's (Laxative) Syrup Pepsin, against all disorders of stomach, liver and bowels. Dr. Caldwell's Syrup Pepsin contains all the best modern knowledge on the subject of these diseases and their cure, scientifically combined by a master at the game of health, viz Dr. W. B. Caldwell, after many years devoted to special investigation of this great subject. Its wonderful success in the quick and permanent cure of all these distressing diseases, has made its name, all over the country, synonymous with health. Try it. Sold by Dr. J. N. Page, Columbia, and Page & Moore, Kane Valley, Ky., at 50c and \$1.00. Money back if it fails.

PRETTY THINGS TO WEAR.

For liberality of choice in fashions the fall and winter of 1906-07 stand unequalled in the memory of the present generation. For the first time in their lives women may relax a little of the tension hitherto required to keep

pace with fashion's decrees. It comes like rain after a drouth, or port to a seaworn voyager. One may wear almost anything without being unfashionable, and, what is much more to the point, one may dare to wear what is personally becoming without being called a freak.

Beautiful stones, of the semi-precious variety, in soft colors and with mysterious hidden meanings in their depths, such as rose quartz, opals, jades, agates, garnets, caruncles, aquamarines, cameos and tourmalines, are seen set singly in simple designs in full metals such as Etruscan gold, oxidized silver, gun metal, dull red gold and soft, pale, greenish gold. Naturally they are much more artistic in effect than the highly polished stones in glittering metal.

The variety that lends a spice to life in all other departments of fashion extends even to hair dressing. Every style is permitted, and coiffures may be worn with due regard to what is individually becoming. Auburn hair remains in highest favor—the darker shades being preferred. The pompadour still holds its own, but has many variations, and the marcel wave is quite as popular as it ever was. The coronet braid, with its little cluster of curls at each end, is still much used.

There is hardly a stiff or rustling silk to be seen in all the shops, so complete is the reign of the soft, shimmering variety. And as for the diversity of silk fabrics and their beauty—words fail to convey any adequate impression. Dresden effects, printed warp taffeta, printed gauzes, marquisette, chiffon and crepe de chine are all developed in wonderful fancies of exquisite coloring that cannot fail in their appeal to the artistic sense.

One of the noticeable features is the use of fur trimmings on silk, on lace, on anything, Mink and sable on duchesse lace somehow do not sound exactly right, but seeing is believing. A gray chiffon velour made in the empire mode had a very narrow edge of mink which outlined the short sleeves and a little chemisette, and the result was undeniably striking.—New York Tribune.

"For years I starved, then I bought a 50 cent bottle of Kodol Dyspepsia Cure, and what that bottle benefited me all the gold in Georgia could not buy. I kept on taking it and in two months I went back to my work as a machinist. In three months I was as hearty as I ever was. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper."—C. N. Cornell, Roding Ga., Aug. 27, 1906. Kodol is sold here by Dr. J. N. Page.

Mr. J. R. Royce and wife visited relatives at Nell last week.

Mrs. O. W. Breeding is suffering very much with a sprained ankle caused from a fall.

Our merchants have received their fall goods and are enjoying a good trade.

JAMESTOWN.

On Sunday October 14th, I started from home to the Grand Lodge at Louisville. In Columbia I was entertained at the hospitable home of Mr. and Mrs. A. D. Patteson, who by the way have a host of warm friends in Russell county. In reaching Louisville I attended every session of the Grand Lodge and it was a very interesting session indeed. When the session adjourned I left for Rocky Hill to visit relatives. Upon arriving there I met my nephew, Liston Robinson, whom I had not seen for thirteen years. No human tongue can express my feelings at that time.

Sunday morning, Mr. John S. East, Robt East, my nephew and myself left for the Mammoth Cave. We arrived at an early hour and took in many scenes in one of the Seven Wonders of the world, after which we returned to Mr. East's home.

The next morning after bidding my nephew and the family of Mr. East farewell I left for home, arriving in Columbia that evening I was with Mr. W. B. Patteson and his estimable wife, who entertained me royally.

One of the saddest duties I ever had to perform was the bidding good bye to my nephew of whom I had seen so little. I will always remember the true Kentucky hospitality extended me by the good people on my little visit.

THE REV. IRL R. HICKS 1907 ALMANAC.

The Rev. Irl R. Hicks has been compelled by the popular demand to assume the publication of his well known and popular Almanac for 1907. This splendid Almanac is now ready. For sale by newdealers, or sent postpaid for 25 cents, by WORD AND WORKS PUBLISHING COMPANY, 2201 Locust Street, St. Louis, Mo., publishers of Word and Works, one of the best dollar monthly magazines in America. One Almanac goes with every subscription.

Dangerously Ill. Do not, by neglect, allow yourself to become critically ill, as you may very easily do by not nipping the early symptoms of stomachic or liver trouble in the bud. There is only one safe, scientific and certain curative treatment for all these disorders of the digestive organs, and that is Dr. Caldwell's (Laxative) Syrup Pepsin. Try it. Sold by Dr. J. N. Page, Columbia, and Page & Moore, Cave Valley, at 50c and \$1.00. Money back if it fails.

DISINFECTING WITH SAWDUST.

Dry sawdust is one of the best materials that can be used on the poultry house floor, where cleanliness is desirable, being excelled only by leaves. It is claimed that the fowls will swallow some of the sawdust with their food, but such is not necessarily the case. During the winter, or at any season of the year, sawdust may be spread over the floor of the poultry house. It quickly absorbs all the moisture of the manure, is not chilling to the feet, affords an opportunity for scratching and dusting in winter, and mixes well with the manure. It is also excellent to spread under perches to receive the droppings during the night, and is quickly applied.

A cheap disinfectant may be prepared by dissolving a pound of soap in two gallons of boiling water, adding a pint of crude carbolic acid, and stirring or agitating the whole until the acid and soap solution are well mixed or emulsified. Pour it into a bucket, or other suitable vessel, and shovel the sawdust into the solution until all of the solution has been absorbed by the sawdust. When desired for use, simply scatter a handful of the carbolic sawdust over the floor, under the perches, or wherever needed, and it renders the house obnoxious to flies, bugs and many other pests that annoy the hens, as well as destroys some of the odors.—Cor. Farm and Fireside.

Give children a remedy with a pleasant taste. Dont force unpleasant medicine down their throats. Kennedy's Laxative (containing) Honey and Tar is most pleasant to take. Children like it, and as a relief for colds, coughs, etc., there is nothing better. No opiates. Conforms to National Pure Food and Drug Law. Sold by Dr. J. N. Page Columbia Ky.

GEMS FROM "SUCCESS."

Remember that an easy-chair is an essential part of the strenuous life.

When you are satisfied with your success, you will begin to wither, shrivel up.

It pays to appreciate and to be appreciated, at the same time to stay on the ground.

Statistics show that great mental workers are, as a rule, long-lived. Activity is conducive to longevity.

If you talk poverty, think poverty, and act poverty long enough you will be convinced that there is nothing but poverty for you.

Whoever uplifts civilization is rich though he lie penniless, and future generations will erect his monument.

The most dangerous force in this country is the fortune with no character behind it.

There is a great difference between a wish and a dogged resolution, between desiring to do a thing and determining to do it.

You cannot hope to accomplish much in the world without that compelling enthusiasm which stirs your whole being into action.

There are a great many semi-invalids in this country to-day who could probably be cured by the right kind of work, mental or physical, because they are invalids mentally before they are physically.

CHAS. S. HARRIS -- EDITOR

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Postoffice as second class mail matter.

WED. NOV. 7, 1906.

From present indications the Democratic primary called on the day of the general election, presumably for the purpose of aiding the party in the close districts, failed to produce the results its advocates claimed. The Third went 700 Republican and the Ninth 1,000. There never was a time when we believed it good party policy to hold it as an auxiliary to the general election and there never was an hour when we believed it good for the party on or off of the election day. A policy that shuts out ability, worthy ambition and aspiration, simply on the ground of money, is not one for which any party may hope to gain strength. It is an experiment with the Democratic party in the State and we hope that it will be the last as well as the first.

Peary, the great Arctic explorer, has finally succeeded in reaching a point within 203 miles of the North Pole. He is reported to have abandoned further efforts at present, to reach the Pole, and is now en-route for New York. Many efforts have been made to reach that cold storage, and, after all, who can imagine what it would be worth to the world?

The Burley tobacco growers have completed their organization to control the price of their product, but no sooner are they over one trouble until another appears. Throughout the Burley district the laborers who are to produce the Burley have likewise organized for higher wages.

Hearst made one of the gamest fights ever put up in the Empire State, but was swept from the deck while his associates won.

The Japs are making a fight to be admitted to the white schools of California. The laws of that State shut them out on the color line.

GRADYVILLE.

Dr. L. C. Nell spent a few days in Louisville last week.

D. C. Wheeler was transacting business in Columbia last Friday.

Each week our market is well supplied with nice beef.

J. J. Hunter was in the community of Breeding a few days of last week looking after tobacco.

Mr. and Mrs. C. O. Moss was in Columbia last Wednesday visiting relatives.

Mr. and Mrs. R. L. Caldwell spent last Saturday night and Sunday visiting relatives at Portland.

Mr. J. A. Diddle has not fully recovered from his recent attack of fever.

Mrs. L. C. Hindman, who has been confined to her room for several weeks with fever, was

glad to note it is improving.

Mr. Romines, the well known tobacco man in this section, was in our midst last Friday and informed us that he had bought about forty thousand pounds in this section.

Our old friend, Geo. H. Nell, of Columbia, looked as familiar around here a few days of last week as an old shoe. He was down with us looking after his farming interest. Come again George.

Mr. Shelby Wilson, who left here about two years ago for the good old State of Indiana to make his future, has returned with a view of making this his home the remainder of his days. We are glad to know that during his stay in Indiana he made it very profitable.

Our Baptist brethren have called Rev. J. L. Adkin, of Burksville, to preach at this place. We are certainly glad to know that Bro. Adkin will serve this people as he is liked by all denominations.

Rev. J. Loyd, of Cumberland county, filled the pulpit at Union last Sunday with a very interesting discourse.

The prayer service at the residence of Bro. R. O. Keltner, of our city, on last Friday night was well attended. There was great interest manifested in the service.

Rev. G. T. Wilson is holding a very interesting series of meetings with Pleasant Ridge church at this time. We understand there has been several professions and a large number of penitents.

Messrs. Paul Wilson and James Wilmore, students of the L. W. T. School, of Columbia, spent last Saturday and Sunday in this city.

Mr. Phil Sherrill and family, who have been in our midst for the past year, will move in the near future in the community of Columbia.

Messrs. J. T. Hamilton and son in company with Mr. Ab Pulliam, of Nell, passed through here last Thursday enroute for Columbia. They are certainly simon pure Democrats and they informed your reporter that the vote in that section next Tuesday would be cast for Gov. J. C. W. Beckham for the candidate for United States Senator.

Mr. Barger and wife, of Esto, spent a few days of last week visiting their daughter, Mrs. C. S. Walkup, of this place.

Mr. J. F. Pendleton while in our midst one day last week informed your reporter that he planted one half bushel of Irish potatoes and from the production of that after what his family consumed during the year, he has stored away 14 bushels for winter use. Who can beat him?

At the residence of Mr. and Mrs. D. A. Grady, of our town, on last Thursday night Messrs. Woody Henderson and John Pickett and Miss Pickett rendered some very fine violin and guitar music. The evening will long be remembered by every one present.

About 18 years ago Mr. Green Romines and family left this place for south western Missouri where they located. Your re-

porter had not the pleasure of meeting Mr. Romines any more until one day last week when he stepped into our place of business looking as natural as he did when he drove cattle bare footed up and down big creek for Yates & Hearing. After taking a good hand shake with our old friend he began to talk of by-gone days and the many things that had taken place since he left old Ky., and he finally he wound up the conversation by telling me of his accumulations of this world's goods down in that good old State of Missouri. We must say here that nothing does us more good than to know that a poor boy from old Adair county and especially from Gradyville goes to a new country comes to the front equal to any body financially. Success to you Green.

Mr. Owen Hardesty received here last Tuesday 36 head of cattle from J. A. Diddle & W. M. Wilmore for which he paid \$1150.

R. L. Caldwell bought one of the finest bull calves that ever come up Big creek last week. We have not learned the price but are sure the price was little less than \$50.

J. P. Dohoney bought of Smith & Nell 5 cattle for \$125.

Bennett & Wilson bought one cow from Sam Pierce for \$19; 11 head of hogs from J. T. Brockman for \$143.38; 5 from Sam Taylor for \$27.26 and 3 from J. W. Tupman for \$20.35.

Smith & Nell sold a pair of mules to Ed O'Daniel for \$340.

Young & Coffey sold 5 head of mules to Sanders & Fox, of Marion county, at from \$135 to \$175 per head.

Messrs. G. H. and J. R. Slaughter sold their crop of tobacco to Gowdy Bros., of Campbellville, at from 34 to 7 cents; Ed Bryant sold to same parties his crop at 34 to 64 cents; corn in this section is reported damaged about one-fifth; J. B. and Bob Watson sold Gowdy Bros., their tobacco crop at from 34 to 64 cents.—Watson Correspondence.

Good roads will lead to the general improvement of the country side. The farmer who drives to and from town over a spacious, smooth well-cared for road will unconsciously come to effect corresponding improvements in the management and operation of his farm.

The more pleasing and pleasant our government can make farm life the better it is for the government. Our cities are over crowded with worthless loafers that might be honorable and respectable farmers. If we had a rural route it would make farm life more desirable and attractive, and as we all have to live off the farmers nothing should be left undone that could be done to make the farm inviting.

Mr. R. D. Tandy, the stockman, of Bliss, bought a car-load of hogs at Amandaville, Cumberland county, last week.

Vester Dills sold one hundred acres of his farm to L. A. Hubbard for \$1,500; Avery Lile bought a pair of mare mules from Alva Curry for \$310; J. A. Mitchell bought a pair of aged mules from J. G. Young for \$205; Odie and Sam Pruett bought a pair of 3 year old mare mules from David Hickson for \$260.—Lilletown correspondent.

Mr. Romines, the tobacco man of Edmonton, informed us that he has

FORTUNE TELLING AND HORSE TRADING.

It is surprising how many still have faith in the weird stories of the "Gypsy Fortune Teller" and who eagerly listen as their future is supposed to be unraveled for the small sum of fifty cents. Egypt and Arabia, famed for the nomadic tendencies of their people, devotion to horses and prophetic visions, have ever held a place in the minds of the curious inclined throughout the world. Even to this day there seems to be a charm in the name "Gypsy" that attracts to no small degree, the many who want to look into the dim vista of the future and reduce its happenings to living realities of the present. At present there is camped on the banks of Russell's creek, near Columbia, four or five separate squads of people, commonly styled Gypsies, but whose lineage could not be traced with twelve thousand miles of Cairo and whose intellect is not sufficient to keep trace with the present let alone the divining of the future. Poor horses and mules for the men and lace selling and fortune telling for the women seem to be their chief mission. In the face of such distant disconnection from Egypt, yet the fortune business has proceeded with unusual interest. The well-to-do and the needy, the educated and the illiterate alike have sought to know their future and doubtless many of them are now rejoicing in the bright picture reflected in the stories told by the "Gypsy."

IN MEMORIAM.

Mrs. Mumzella McScholl, who recently died at Jamestown was near eighty years old and the last of the pioneers of Jamestown. She was born in Barren County, near the Mammoth Cave. Her parents came to Jamestown when she was quite small. Her life was one of industry and usefulness. Aunt Scholl, as she was familiarly known, found herself in serving others, she assisted more people in sickness, sorrow and death than any other woman in this part of the State. Her husband was a labor of love, she did it without money and without price. Her husband died of Cholera during the scourge of eighteen seventy three at Jamestown, leaving her with no means and several small children to raise, which she did by the labor of her hands. She was the mother of Dr. J. B. Scholl, of Jaxob, Luther G. Scholl, of Burnside and Mrs. J. B. Brady, of Monticello, besides several other children. She deserves a monument, and she, herself built it in deeds of loving kindness. "Full many a gem of purest ray serene, The deep unfathomed caves of ocean bear, Full many a flower is born to blush unseen, And waste its sweetness on the desert air." But she is reaping her reward in an abundant entrance into that kingdom where many will greet her whose burdens she has helped to bear.

One whom she served.

John Wallace killed one of the largest hawks with a rock, last Monday, that ever terrorized a flock of birds or beat the air of Southern Kentucky. It measured 4 feet from tip to tip. The bird showed fight but was finally put to rest.

LIFE IN SCHOOL.

Letter Written By Malcom Taylor to a Friend in Glasgow.

We give below a letter from Mr. Malcom Taylor, who is attending the Lindsay-Wilson training school at Columbia, Ky. The letter was written to a friend here, but we risk his displeasure and publish it, knowing it will be read with much interest by his friends here.

"While I have a few minutes leisure, I shall take advantage of it by writing to you.

"My association and environments here within the past few weeks have been widely different from that within the past two or three years previous to my entering here.

"I can say this much for this school. That it is one of the best schools and I like it better than any I ever attended.

"Since entering school here, I can honestly say, that I have lived a better life morally and spiritually, than I have ever lived before which will doubtless be refreshing news to you.

"There are four preachers here, one Baptist and three Methodists, but needless to say all denominational prejudice is laid aside and we are brethren in Christ. This school is conducted upon a strictly moral basis, and parents may rest at ease when their sons and daughters are here. The best people on earth are represented here—the great country people. I congratulate myself with having the pleasure of rooming with a young Methodist preacher, (who has to be "showed") Mr. Mooman, of Missouri.

"We have good, wholesome food and plenty of it, and well-cooked and afterwards well eaten. Supper is about 6 p. m. Afterwards we hold services in some of the rooms at the boys' dormitory, which consists of a song, a chapter from the Bible and prayer. Study hours begin at 7 p. m. and last indefinitely.

"The college is upon a high elevation East of Columbia. Overlooking this beautiful little town, one beholds nature in all its splendor, and at this particular time, attired in its autumnal vestment. It has been said that nature is the art of God, and one can see His mighty arts on all sides here.

"But there is no place on earth to me, so dear to my heart as dear old Glasgow and Barren county, for the truest and best friends I have on earth abide there and 'where one's heart is there are they also.'—Glasgow Republican.

FIVE ISSUES OF THE YOUTH'S COMPANION.

In November—all free, with the December numbers, to new subscribers for 1907, if the subscription is received by November 1st. A timely article, and one of unusual interest and importance for all young men who believe in honest politics, is the Hon. Everett Coblentz's contribution to the November 1st issue on "Beginners in Politics." Other features of The Companion's November issues are a story of the famous dark day in New England by C. A. Stephens, a story of Valley Forge by Ralph D. Paine, and nearly twenty other complete stories, besides instalments of C. A. Stephens's excellent serial, "Uncle Dresser's money." In the November 1st issue is begun a series of articles on "Modern Occupations for Women" by Edward W. Frenz. Much space in the series will be given to the less known occupations, which are often most congenial, very remunerative, and are suited particularly to women of ideas, ingenuity and tact. The first in the series is "The Social Secretary."

FARM FOR SALE.

We are authorized to sell one of the finest farms in Adair county. 260 acres, is in the "limestone belt," good strong land, produces fine hay, corn, wheat, oats, and one of the best burley tobacco farms in the county. Is also a fine stock farm with eight or ten fine, never failing springs. Good 8 room house with fine clatsen and well at door and cave spring with rock spring house close by. Four good barns, and three good cribs. This farm is located in one of the best neighborhoods of the county, close to school, church and post-office, and 5 miles West of Columbia. Call on or address, T. A. and M. M. MURRELL, Admrs., 41-4t. Columbia, Ky.

FLOUR AND SAW MILL FOR SALE.

I have for sale, a first-class flour mill, in operation, also a good saw mill. Will sell reasonable. Call on or address, D. J. BOWEN, (45-3m) Knifley, Ky.

Miss Susan Montgomery of the Mt. Pleasant neighborhood was knocked down by a sheep last Sunday. One eye was bruised considerably, and she died freely from mouth and nose and was unconscious for awhile. She was taken to W. H. We have just returned from the Chicago Markets, where we bought and now have on sale a large stock of Ladies, Misses and Children's Cloaks, bought at "late in the season" prices. We can give you bargains.

52-2t. RUSSELL & Co.

Mr. M. L. Mitchell, of near Columbia, has a Jersey cow that in the past seven years has produced \$400 worth of butter, besides what the family has consumed. This is a good record for one cow and we doubt that it can be surpassed in the county.

Mr. J. S. Stapp informs us that his mill has been running every day and is unable to meet the demands. He is now running day and night and hopes to fill all orders promptly.

I have for sale two or three good farms, saw mill, 15 horse power gasoline engine, three corn mills, shingle machine. Also a blacksmith shop and tools at Russell Springs. J. S. STAPP, 51-2t

OFFICERS

COL. J. D. POWERS, Pres. JUDGE MAT O'DAUGHERTY, 1st V. Pres.

DARWIN W. JOHNSON Secretary and Treasurer.

We want all Kentuckians to know that a company is being operated in this State for the purpose of keeping a vast amount of money at home, which is yearly being sent out of the State, and the names of the officers are a guarantee of success to the Company, and a square deal to the policy holders. We want all Kentuckians to realize that we have a first-class, strictly Home Life Insurance Company, conducted by the best people of the State, on good business and high moral principles.

We invite all to join in building up home industries by patronizing a Home Life Insurance Company.

The following letter speaks for itself with reference to the Commonwealth Life Insurance Company.

Louisville & Nashville Railroad Company, Office of the Treasurer, Louisville, Ky., July 9th, 1906. Mr. Norman Rushton, Columbia, Ky.

I am in receipt of your letter of the 7th instant making inquiry in regard to the affairs of the Commonwealth Life Insurance Company, of Louisville, Ky, and take pleasure in informing you that this Company is in a very prosperous condition, their business is increasing rapidly, and it is managed in a conservative and economical manner.

I consider the policies written by this Company have all the advantages embodied in the policies written by the best companies in the country, and have none of the disadvantages that are shown in many of the very large Companies.

Yours truly, Wm. W. THOMPSON.

"HELLO, CENTRAL!"

Wonders Have Been Wrought Since
First Call in 1878.

"Hello, Central!" was first heard in 1878. Today the exchanges are numbered by the thousand, the telephones by the millions. Various industries, unknown thirty years ago, but now sources of employment to many thousands of workers, depend entirely upon the telephone for support. Numerous factories making lead sheathing, dynamos, motors, generators, batteries, office equipments, tables and many other appliances, would have to close down and thus throw their operatives into idleness and misery if the telephone bell should cease to ring. The Bell Company employ over 87,000 persons, and it may be added, pay them well. Many of these employes have families to maintain; others support their parents or aid younger brothers and sisters. It is safe to say that 200,000 people look to the telephone for their daily bread. These figures may be supplemented by the number of telephones in use (5,638,000) by the number of miles of wire (6,043,000) in the Bell lines, and by the number of conversations (2,479,500,000) electrically conveyed in 1905. The network of wires connects more than 33,000 cities, towns, villages and hamlets. Such tremendous growth as these statistics show would not only imply a steadily increased appreciation of the telephone, but would also suggest improved instruments, more skillful operators and better service. There would be no flattery in such suggestion. Electrical science has undergone radical reformation since 1878. Telephony has raised the utilization of electricity to the height of a profession. Of course, such advances have not been won without cost. Fortunes were spent in experiment and investigation before a dollar came back. Communication by the first telephone was limited to a few thousand feet. Now conversation can be carried on by persons 1,600 miles apart. To-morrow long distant lines will span the continent; and the day after oceanic telephony will be a commonplace of mercantile routine. But science and money had to collaborate for years before they could work the miracle of enabling Boston and Omaha to talk together.

BIG PLURALITY.

For Hearst in New York City Predicted by Chairman Connors.

William James Connors, Chairman of the Democratic State Committee, announced to-day that W. R. Hearst would receive a plurality in New York City of not fewer than 148,000 votes. He said that the plurality for Mr. Hearst would in all probability be much larger, but at the time he was willing to go on record as predicting that it would not be less than 148,000.

Chairman Connors is now receiving reports from all the counties up state, and by Friday night of this week he expects to

be able to give out an estimate of the vote in the entire State.

Tammany Leader Murphy said to-day that an estimate of 74,000 plurality for Hearst in this city was conservative and would be enough to win. He also said that there would be but one canvass, or poll of the votes by Tammany, and that the result of that would not be known until the Saturday before election.

When informed that a newspaper poll had indicated a plurality of 74,000 for Hearst in the city, Mr. Murphy said:

"Well that's enough to win."

"Coler received 123,000 majority in the city and was defeated," some one suggested.

"There weren't any Democrats up state to vote for Coler."

"Then you think Hearst will come down to the city with a plurality?"

"I haven't a doubt of it!"

HOLLER COMES FROM THE JAPS

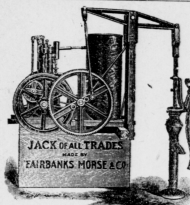

Barring of Children From The Frisco Schools.

For the first time since she whipped and humbled Russia by driving her out of Manchuria, Japan poked her world power prestige under "Uncle Sam's" nose to-day. Courteously, but firmly, her Ambassador at Washington, Viscount Aoki, informed Secretary of State Root that his Government objected to the alleged discrimination against Japanese school children in San Francisco, and expected the Administration to see that they were accorded all privileges and rights guaranteed by treaty. While Aoki was urbane, as becomes a diplomat of the first rank, there was nothing of humility in his manner, and notwithstanding the fact that he said he did not go to the State Department to file a formal protest, his demeanor was suggestive of the spirit of the new Japan, about which much has been heard since the treaty of Portsmouth was signed. In other words, the Mikado's Government feels that it is big and powerful enough now to "insist" instead of only to "suggest." Secretary Root, proving that he is a master of the diplomatic game, countered with a request that Japan prosecute the Japanese poachers who have been raiding the Alaskan rookeries lately. The Ambassador promised to lay the matter before his Government, while Mr. Root assured him that the Federal Government would exert its influence toward having the school question adjusted satisfactorily.

Postmaster Robbed

G. W. Fouts, Postmaster of River-ton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice, that even my finger nails turned yellow; when my doctor prescribed Electric Bitters; which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, Weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful Tonic. At T. E. Paul's Drug store, 50 cents.

SET APPLE TREES IN THE FALL.

My experience of over forty-three years in the fruit-growing business teaches me that the most appropriate time to plant an apple orchard is in the Fall, from about the last of October to the middle of November, writes W. H. Underwood in Orange Judd Farmer. The ground should be loose and moist enough to work well, but not wet and sticky. At that time the growing season is over and the trees will hardly be affected at all by the change from nursery to orchard. The roots that have been cut in digging and preparing for resetting will callous over. The ground will settle firmly about the roots, and in the Spring the trees are ready to awaken into new life without a check to their growth. I have found that good, thrifty, one-year old trees are the best, because they get damaged less if shipped from a distant nursery. They are more apt to live, are more quickly and easily set, and contain more fibrous roots than older trees. It is not necessary to cut the top back. It can be permitted to grow straight up, forming a beautiful top, without the numerous forks so objectionable to trees that have been headed back. As must be done with three-year-old trees to make the top correspond with the roots that have been cut off.

In setting the trees, they should be put at least 24 feet apart each way and about two or three inches deeper than they were grown in the nursery row. It is very important that all the roots are in natural position, with mellow earth worked well among them. A mound of earth should be thrown up around the trunk of each tree and a protection of cornstalks, lath or paper be placed around the body, to keep rabbits from gnawing them.

Another requisite is to watch the trees, and when you see an open space around them, caused by the wind moving the trees, keep that filled up and well packed. This should always be looked into before Winter begins. You will very likely find a space from one-half to two inches. The rain and snow settle in this space and freezing there, always hurt the trees more or less. I am of the opinion that more young trees die from this than from any other cause.

In the Spring a leguminous

crop of some kind should be sown between the trees. I prefer cow-peas. I find it necessary to sow them in rows in order to cultivate the orchard. Such crops as potatoes, corn, etc., are excellent, however, for the first season. The trees must be kept well cultivated until they are at least seven years old. If the first season after the trees are planted is damp, they should be cultivated pretty deeply, but if it should be dry, three inches will be deep enough. Make it a rule to stir the soil at least every two weeks.

After the trees have been set one season, watch every tree, and do not allow them to grow forks. Cut off all forks whenever you see them beginning to form. If any of the branches are inclined to grow too fast, they must be cut back. Whenever you notice one side of the tree inclined to grow too fast, and likely to get out of balance, put it back, always aim to keep a spiral stem and have the branches start out horizontally.

After the trees come into bearing, cropping should cease, but cultivation should be continued as long as the trees continue to bear. The great mistake that some make, is in keeping their orchards in a bluegrass sod. You might as well try to raise corn successfully in such sod as apples.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a good digestant which will digest the food eaten, thus taking the work off the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Dr. J. N. Page, Columbia, Ky.

THE DIGNITY OF LABOR.

With farming becoming recognized as one of the "learned professions," with lawyers, doctors, preachers and successful business men buying farms, seeking recreation and rest in farming, the old idea of the degradation of labor is passing away. The use of brains in combination with muscle lends dignity to toil. The various agencies at work to educate the farmer become not only factors in improving his financial condition, but vastly improving his social condition. It has been truly said:

"There are more agencies at

work to educate the farmer than ever before in the world's history." Not only is scientific investigation doing wonderful things for agriculture, but many agencies are at work to bring the individual farmers to an understanding of scientific methods. Not only is it true of the farmers of to-day, but still much more is being done for the farmers of the future, for the fundamental principles of agriculture are being taught more or less in all primary and intermediate schools throughout the land. Industrial training forms an important part of the course of duty in our most progressive schools, and the boys will no longer plod along in the old ruts just because it was the path their fathers trod. The farmer of the future will want to know "the reason why." And all of this will tend to bring to honest labor the dignity that it is due. —Washington, Idaho and Oregon Farmer.

WITH OUR CORRESPONDENTS

Week's Happenings—News Important or Otherwise as Reported By Our Corps of Correspondents.

RUSSELL SPRINGS.

W. D. Stephens is still buying mules.

Some of our citizens attended the entertainment at French Valley last Friday night. The exercises were conducted by Mr. Montie Hale, the teacher. All seemed to enjoy the program.

Mr. J. W. Voils, of Esto, has removed to our town to stay during the winter.

Our merchants, who have been to the city to buy goods, have returned.

Miss Bertha Hatfield, Jabez, was visiting her brothers here last week.

Our school building has been repainted, and more furniture installed.

Mr. Jas. Darnell is moving to our town this week. He is going into the house near Stephens store, owned by Mrs. Timie Wells. Mr. Al Stephens has left town and gone to his farm.

Mr. Geo. Stevenson, of Montpelier, was in our town last week on business.

We now have two Sunday Schools doing splendid work each Sabbath.

The Academy is doing excellent work with the best attendance ever known in its history. No less than five hundred young people have received instruction since it was established.

LILETOWN.

There is a great deal of wheat being sown in this community.

Vester Dills has sold part of his farm—100 acres, to J. A. Hubbard for \$1500.

Allen Rose lost a fine mare last week with the bots.

Vester Dills and family visited at Mrs. Lee Blakeman's, of Exie, from last Friday until Sunday.

Avery Lile bought a pair of mare mules from Alvia Curry for \$310; J. A. Mitchell bought a pair of aged horse mules from J. G. Young, for \$265; Odie and Sam Pruitt bought a pair of three-year-old mare mules from David Hickson for \$260.

Mr. Edwin Lile and his broth-

er, Avery have rented a farm near Greensburg, and will remove to it in the near future.

SPARKSVILLE.

Quite a number from this place attended the funeral of Rev. Press Rowe, at Breeding, Sunday.

Jewel Irene, the little daughter of Mr. and Mas. W. L. Gadberr, is very sick at this writing.

Messrs. O. W. and C. G. Breeding were in town Thursday.

There is a great deal of sickness in this community.

Mrs. O. W. Breeding is suffering very much with a sprained ankle caused from a fall.

Miss Effie Gaston visited relatives at Dirigo Tuesday night.

Mr. C. C. Coomer and wife, of Basil, visited relatives here Saturday and Sunday.

Mrs. T. F. Curry and daughter, Stella, were shopping in Columbia Saturday.

Mr. Tom Bundle and wife, of Three Springs, Hart county, are visiting relatives at this place.

BLISS.

Sunshiny days accompanied by cold has been the order for the past week.

Wheat sowing season is over in this part, and the early-sown crop is coming up nicely.

Some farmers are beginning to crib their corn.

Whit Coomer built a fair-sized barn on his place last week. He did his own carpenter work.

W. H. Flowers has, for the last few days had his face in thick bandages. The cause is a pet boil.

Mrs. J. K. Robertson and little son, James, who went to Elida, New Mexico four months ago, are back here visiting old friends.

Our district school is progressing nicely under the supervision of Miss Valonia Sandidge.

Deputy Sheriff, E. M. Staples, of your city, was here transacting business with C. M. Herriford on the land-trade Wednesday. Now Mr. Staples has a good home ready, and we are

free to suspect that he may have something in view. His actions are to be watched with interest.

M. L. Grissom is visiting some of the Columbia people, testing their hospitality, as well as recuperating. He reports doing admirably well.

Mrs. M. J. Murrell and son, Mont, of Columbia, visited at S. T. Hughes' a few days of last week.

Mrs. W. M. Wilmore and little daughter, of Gradyville, spent Wednesday at Dr. W. T. Grissom's.

Mrs. Henry Logan, of Pettit's Fork, and Mrs. Annie Jhonston were at R. E. Tandy's visiting a few days of last week.

Mrs. C. M. Herriford was in your city Thursday assisting Mrs. Judge Herriford to straighten out, who has removed there from Burksville.

Mrs. Kate Hughes and son Jimmie, and Miss Mag Brooks, of Columbia, were visiting the families of S. T. Hughes and Dr. W. T. Grissom the former part of the week, as a farewell because they and Tobe and Miss Vic Hughes are to leave for Texas next week.

Mr. George Hood, of Thurlow, Green county, was in this locality visiting his relatives the latter part of the week.

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest Cough and Cold cure and Throat and Lung healer. Guaranteed by T. E. Paull, Druggist. 50c and \$1. Trial bottle free.

IRVINS STORE.

Our farmers are busy gathering corn and report much of it rotten.

Mr. William Yeaden, who has been visiting relatives here has returned to his home in Missouri.

Uncle Lo Bradshaw is very sick with a complication of diseases.

Alvin Bowmen, of Royalton, visited his uncle, Dr. Hammond, Sunday.

R. P. Smith and wife will move into his property here next week and begin housekeeping in earnest.

Mr. Avery Hood went to Esto

yesterday on business.

Aunt Peggy Jasper, who has been sick for a long time, died Sunday.

Smith Bros., have received their new goods, and it is a wonder how people get money enough to buy so many.

Next Tuesday will make half of the candidates sad and half of them glad. If every voter would take the trouble to inform himself on questions before them, and not be led by so called leaders, and then go to the polls and conscientiously register their sentiments we would be represented by better men and receive more that would be to the common interest.

PELLHAM.

Farmers have finished sowing wheat; some is up and looking well.

Tobacco buyers have been in this neighborhood for several days.

Quite a crowd of young people gathered at the residence of Mr. John R. Cundiff Saturday afternoon and all report a very pleasant time. Those present were: Misses Myrtle and Mary Squires, Tennie Young, Julia Penick and Celand Bumgarner; Messrs. Royer Page, Willie Wilson, Lis Young John and Rue Squires and Perry Cundiff.

Bro. Dudgeon filled his regular appointment here last Sunday.

Miss Anna Cundiff is visiting at Absher.

Your correspondent received a letter from Mr. Oris Young, who is at Bosworth, Mo., in which he states that he is running a livery barn and getting along well. It is no trouble for an Adair county boy to get work when he goes West.

Finis Cundiff, wife and children visited in Gradyville Saturday and Sunday.

Deed Smith is our champion possum hunter. He has caught 14 this season.

Rue Squires was at home Saturday and Sunday. He likes teaching, is in a good neighborhood and has good attendance.

Terrified.

You may well be terrified, when you first suspect that you are a victim of chronic dyspepsia, liver or bowel trouble. These diseases always go from bad to worse, unless checked in time by the only safe and sure laxative medicine dyspepsia that you can get, Dr. Caldwell's Syrup Pepsin. Sold by Dr. J. N.
